

Follow a process for reinforcing expectations

State, teach, review, and reinforce positively stated expectations in the classroom.

- 1 Establish behavioural expectations of students with students.
- 2 Establish expectations that students can have of teachers (for example, respect, consistency, an engaging programme).
- 3 Teach expectations in the context of routines.
- 4 Prompt or remind students of expectations prior to entering natural context.
- 5 Monitor students' behaviour in the natural context and provide specific feedback.
- 6 Evaluate the effect of instruction – review data, make decisions, and follow up.
