

# Make effective use of technologies to support access

A suggestion for implementing the strategy  
'Helpful classroom strategies in Years 9–13'  
from the Guide: [Dyslexia and learning](#)

---

## **Includes:**

- Coach writers using collaborative tools
- Make accessibility tools available to all
- Offer text-to-speech tools
- Provide audio supports
- Use tools and apps with built-in supports
- Useful resources

## Make accessibility tools available to all

Introduce all students to free or inexpensive tools that can remove barriers and provide support for literacy learning.

- ✓ Text-to-speech (TTS) software converts text from a website or digital document into speech by reading written information aloud. It is often highlighted with word tracking.
  - [TTS on Mac operating systems](#)
  - [Natural Reader](#)
  - [Read and Write for Google Chrome](#)
- ✓ Word prediction software predicts a required word as a student writes, producing a list of words. Explore [LetMeType](#).
- ✓ Explore [Mercury Reader](#) or use the Reader function on Mac operating systems to access clutter-free web pages.
- ✓ Spell and contextual grammar checkers. Explore [Ginger for Chrome](#).
- ✓ Closed Captions (subtitles). Turn them on when sharing videos with students.

## Provide audio supports

For efficient user-paced multimedia learning, provide children with dyslexia information in an auditory way or with auditory support.

**Carolien Knoop-van Campen, Eliane Segers, and Ludo Verhoeven**

## Use tools and apps with built-in supports

Model how to use text-to-speech, dictation, glossaries, and highlighters.
