Enable students to personalise learning

Set up the learning space so students can adjust it to suit their needs and preferences.

Make options and supports available to everyone.

- ✓ Create opportunities where students can personalise learning tasks and projects and build on their knowledge, experience, and strengths.
- ✓ Develop success criteria with the students and present them with clear visual supports.
- ✓ Allow students to use a range of media so they can select the most appropriate for them.
- ✓ Make learning support tools (text-to-speech, graphic organisers, planning tools, and so on) available for all students.
- ✓ Offer a flexible learning environment with a variety of seating and working spaces.
- ✓ Offer a reader-writer or assistive technologies to support them in assessments.

Useful resources

UDL-aligned strategies

UDL-aligned strategies are instructional methods and tools used by teachers to ensure that all students have an equal opportunity to learn. These guidelines help to select strategies that remove barriers in instruction so that all students can achieve their learning goals.
