

Plan a systematic approach

The goal of systematic teaching is the automatic and fluent application of language knowledge to read for meaning.

- ✓ Plan systematic and cumulative sequences of instruction, which progress from prerequisite skills onto more advanced skills.
- ✓ Give learners ample opportunities to apply their skills in reading texts they are capable of decoding and comprehending.
- ✓ Use student responses to adjust pacing, presentation, and amount of practice.
- ✓ Monitor progress closely through informal (observation) and formal (standardised) measures.
