

Develop strategic and annual plans

Outline in the school's strategic and annual plans how the school is going to become more inclusive and meet the needs of all learners.

In your plans, show:

- what your board wants to achieve for students with learning support needs
- how you intend to achieve the outcomes for these students, for example, your teaching strategies, and how you are going to use your resourcing
- what success will look like for students
- how you will evaluate and assess your progress towards meeting your goals or targets and report this in your annual report.
