Support time management

[View full image \(679 KB\)](#)

Introduce tools such as visual timers to reduce surprise that an activity is over or to signal that a transition is coming.

Use multiple approaches to support concentration

Provide options to support concentration and short-term memory.

- ✓ Monitor and moderate the classroom for visual and auditory distractions.
- ✓ Encourage students to adapt the environment to meet their needs by, for example, wearing headphones, moving to a quiet environment or taking a walk to support their thinking.
- ✓ Present information in a range of ways over an extended period of time to help students to retain information, build their understanding and stay focused.
- ✓ Discuss with students the effectiveness of the classroom and make modifications and remove barriers where needed.
- ✓ Use of visual prompts and cues to support understanding and access to learning materials.
- ✓ Make links to background knowledge or previous learning to increase connections.
- ✓ Schedule regular short breaks for physical movement.

Offer a range of approaches to support planning

Suggestions for supporting students' planning and organising.

- ✓ Use charts, visual calendars, colour-coded schedules, visible timers and cues to increase the predictability of regular activities and transitions.
- ✓ Encourage students to use their mobile devices to schedule alerts and reminders for regular and novel events and task deadlines.
- ✓ Highlight patterns, critical features, big ideas and relationships using visuals, mind maps, 3-D manipulatives, outlines, flow charts and real objects.
- ✓ Model and make available graphic organisers and flow charts to support planning and thinking in all curriculum areas.
- ✓ Break tasks and lengthy assignments into small manageable parts. Schedule workflow using [Trello](#) to organise what needs to be done and when.
- ✓ Provide options so that students can submit work online.

Support thinking in multiple ways

- ✓ Highlight patterns, critical features and relationships.
- ✓ Use cultural and narrative frameworks to support retention and thinking.
- ✓ Use visuals, 3D manipulatives, outlines, flowcharts, and real objects.
- ✓ Use mind maps to brainstorm ideas and make connections.
- ✓ Support group and class discussions with visual annotations to prompt later recall of key ideas.
- ✓ Offer students a variety of graphic organisers and flowcharts to support thinking.
- ✓ Give students multiple opportunities to engage with new ideas and concepts.
- ✓ Provide extra time for students to think and process before responding.
