## Options for student expression

Provide a range of ways for students to express what they know.

- ✓ Give students a range of ways to communicate their ideas and complete their work. Encourage them to work on computers.
- ✓ Allow students to choose how to communicate about a topic. Give students with ADHD fewer written tasks and opportunities to present their ideas visually or orally.
- ✓ Provide options for exams – use digital rather than hand-written text or access a supervised reader. If your student also has dyslexia, organise an early assessment for reader/writer support or specialised software for reading/writing.
