

Take a multi-sensory approach

Ask the student what will help and offer multiple ways to build understanding.

- ✓ Offer real experiences.
- ✓ Use images, audio and video to support text and spoken information.
- ✓ Use physical or online manipulatives and tools to support tasks. For example number lines, base ten blocks, counters and scales.
- ✓ Use closed captions on videos.
- ✓ Use online simulations when possible, for example, online experiments.
- ✓ Offer digital text alongside printed versions so students can personalise it by enlarging it, listening to it, or changing the font, colours and filters.
- ✓ Make instructions, demonstrations, or key content rewindable and accessible 24/7 using screencasts, recordings, images and videos.
- ✓ Put content in a variety of formats in one place, for example, a video, a graphic and text document, by using online tools and digital platforms.
