Build student and whānau confidence

Discuss with students what will support their participation and motivation, both at school and when working remotely.

Build these suggestions into your teacher practice.

- ✓ Familiarise your students and whānau with hybrid learning platforms and systems. For example accessing learning, feedback, reporting, support and pastoral care.
- ✓ Create visuals and step by step guides to help students remember systems.
- ✓ Empower ākonga by helping them to understand what helps them to learn both at school and when working remotely.
- ✓ Provide opportunities for ongoing student and whānau feedback to identify issues and opportunities for improving the hybrid approaches.
- ✓ Provide strategies, thinking frameworks and pathways for when students get stuck.
- ✓ Provide opportunities for students to collaborate, even when some or all are working remotely.

Maintain personal connections

Students benefit from a personal connection when learning in unfamiliar situations. Take time to connect and make them feel seen and heard.

Strengthen information sharing

Communicate and share information in a meaningful way, demonstrating understanding and support for whānau concerns.

- ✓ Empower both ākonga and whānau by making learning visible. Make content, activities, learning outcomes and success criteria available anytime and anywhere.
- ✓ Develop systems for passing on information about a student's needs, progress and next steps.
- ✓ Create flexible systems to cater for different needs, age or stage and levels of autonomy.
- ✓ Encourage whānau to share what they have noticed or assessments they have had done outside school.
