Enable students to personalise learning

Set up the learning space so students can adjust it.

Make options and supports available to everyone.

- Create opportunities where students can personalise learning tasks and projects and build on their knowledge, experience, and strengths.
- Develop success criteria with the students and present them with clear visual supports.
- Provide opportunities for students to gain confidence using a range of media so they can select the most appropriate.
- Make support tools (text-to-speech, graphic organisers, planning tools, and so on) available for all students.
- Offer a flexible learning environment with a variety of seating and working spaces.

Use tools and apps with built-in supports

Model how to use text-to-speech, dictation, glossaries, and highlighters.
