Support for students sitting NCEA

Special assessment conditions (SAC) – NZQA grants entitlement for SAC so that approved candidates have access to assessment for national qualifications and fair assessment.

Applications are made by schools on the behalf of candidates. Entitlement for SAC is required for both internal and external NCEA assessments.

- Identify student needs.
- Submit an application for the student to NZQA Special Assessment Conditions team (SAC). This may include an application for a reader/writer and/or more time.
- An educational psychologist can support the application with test results and give a fuller picture of the student's strengths and needs. There is a cost involved.

Work with RTLB

Teachers play an important role in describing learning challenges for students and identifying triggers for student behaviour.

RTLBs collaborate with the teacher to meet the learning and behaviour needs of the student. They can assist with identifying strengths and next steps.

Parents are often aware that there is something different about the way their child behaves and learns but may not know exactly why that is. Early experiences in school are often the first time that specific concerns are raised.
