

Support students to remember

Most students with FASD have a strong long-term memory. Their short-term memory is weaker.

Supports for recalling information

- Use highlighters to identify important information when studying.
- Use mnemonic devices.
- Provide many opportunities for repetition, including online skill and drill activities.

Supports for tests and assignments

- Allow students to use open books or notes in tests.
- Provide examples of finished assignments and model answers for tests.

Supports for organising time and setting reminders

- Use an online calendar to provide reminders for when assignments are due, when a trip is scheduled, or when specific gear is needed for classes.
- Show students how to use the timer on their phone, watch, or laptop.
- Create an online timetable, including class subjects and times, that can be accessed easily.
