

# Support participation and build confidence

A suggestion for implementing the strategy  
'Helpful classroom strategies years 9–13' from  
the Guide: [Low vision and learning](#)

---

**Includes:**

- Design equitable learning environments
- Remove barriers to participation
- Increase access through technologies

## Design equitable learning environments

This one-minute video highlights how we can unknowingly create barriers to learning.

## Remove barriers to participation

Discuss with students what supports their participation and confidence.

- ✓ Create clear, planned pathways for moving around the classroom. Minimise random obstacles.
- ✓ Familiarise the student with a new classroom layout BEFORE making changes.
- ✓ Encourage all students to position themselves in optimum environments to support their engagement and attention.
- ✓ Discuss with the student the best places for them to sit to access information at a distance.
- ✓ Make support options, such as text-to-speech, available to all students. Model and encourage their use.
- ✓ Welcome and encourage digital technologies selected by students, and design activities so that they can use them productively.
- ✓ Create a culture where students support each other.
- ✓ Use the student's name when addressing them.
