Trial teaching approaches in an ILE and evaluate their success

A suggestion for implementing the strategy 'Develop inclusive teaching practices' from the Guide: ILEs

Includes:

Trial new approaches

Develop collaborative teaching practices

Identify and establish learning programmes

Develop systems for sharing

Build inclusive practice

Useful resources

Trial new approaches

Deputy Principal, Adrienne Simpson shares how Woodend School staff inquired into, and trialled, new approaches prior to moving into new buildings.

Develop collaborative teaching practices

For many teachers moving from single cell classrooms into a collaborative teaching space requires a significant shift in pedagogy and ways of working.

Provide training and coaching to support high levels of communication, relational skills, and trust.

- ✔ Start by having pairs of teachers plan together.
- ✔ Support them in higher-level thinking, not compliance.
- ✔ Help them to review their process and identify what's effective – both in their classroom practice and in their relationships during this development.

Identify and establish learning programmes

Gabrielle Nuthall explains, establishing The Daily Five literacy programme prior to moving into their ILE provided routine and familiarity for students at Halswell School.
