

Offer a range of materials and supports

Provide a range of materials and support for students to express what they know in a variety of ways.

- ✓ Create opportunities where students can personalise learning tasks and build on their knowledge, experience and strengths.
- ✓ Develop success criteria with the students and present it clearly supported with visuals.
- ✓ Structure collaborative activities so that each student knows what is expected of them.
- ✓ Create opportunities for students to gain confidence in a range of media so that they can select the most appropriate to express and share their thinking and learning.
- ✓ Make learning support tools (text-to-speech, graphic organisers, planning tools and so on) available to everyone.
- ✓ Assess understanding and presentation separately.
