## What is tuakana-teina?

The concept of a tuakana–teina relationship.

The tuakana-teina relationship, an integral part of traditional Māori society, provides a model for buddy systems. An older or more expert tuakana (brother, sister or cousin) helps and guides a younger or less expert teina (originally a younger sibling or cousin of the same gender).

In a learning environment that recognises the value of ako, the tuakana-teina roles may be reversed at any time. For example, the student who yesterday was the expert on te wā and explained the lunar calendar may need to learn from her classmate today about how manaakitanga (hospitality) is practised by the local hapū.

## **Encourage teamwork through PE**

Social skills and collaborative teamwork are benefits of a balanced physical education programme.

- Select games that only succeed when a whole team works together, for example, Ants on a log.
- Organise peer-to-peer support groups or buddies to ensure students needing extra support understand the game rules and their role in the team.
- Explain behavioral expectations from the beginning with visual supports such as pictures, diagrams, and a clear timetable of events.
