# Virtual assistant

A virtual assistant understands voice commands and can be used to support learners.

Virtual assistants such as Siri can be used to:

- quickly access information, for example, weather, locations, definitions
- Complete basic checking functions, for example, spelling, calculations, and facts
- send messages
- set up reminders.

For further information, explore:

- Siri on your iOS device
- Google Assistant on your Android or Chrome device
- Use the voice memos app
- Android voice recorder
