The board of trustees is responsible for ensuring the school has the capacity and capability to meet the needs of all students who are entitled to enrol at the school by:

- ▲▲ making sure every board member understands the board's legal and ethical obligations to provide a high-quality education for all students who choose to enrol at the school
- ▲▲ developing realistic goals and strategies for the school through the school charter and the school's strategic and annual plans
- ▲▲ monitoring the performance of the principal to ensure that they are meeting the school's legal obligations and the board's goals
- ▲▲ communicating with parents and the local community to ensure that their experience of the school is positive and that their needs are being met
- ▲▲ budgeting for adequate resources to enable the principal to effectively meet the goals and objectives the board has set
- ▲▲ supporting the principal to seek help and advice from the community, other professionals, the Ministry, or other stakeholders as required to ensure that every student enrolled at the school experiences an education that meets their individual needs.
