What is the UDL framework?

UDL is a framework to improve and optimise teaching and learning for all people based on scientific insights into how humans learn.

Environments can be designed with all three learning networks in mind.

The UDL principles help us keep these in the front of our thinking.

Reflection questions

What is the value of having a framework to guide planning?

Which guidelines and checkpoints are already embedded in your practice and which are unfamiliar?

Access is the focus of the first guideline of each UDL principle:
How do you ensure everyone has access in your classroom?
